MOP STUDENT'S PROJECT 2023-24

The Modern Office Practice Department has MOP Project in the Vth Semester where the 3rd year students have to complete the research project of 150 marks.

For the year 2023-24 the topic selected by the research student Mr. Ramanand Santosh Satarkar q\was "*A case study analysis on why preference for international tourism over local tourism in residents of Marcel Goa*."

The research was conducted through a closed questionnaire by taking a sample size of 48 people from Marcel area.

The study was taken up by the researcher to gain insight on understanding of International tourism and local tourism among respondents. The research showed that 90% of the respondents were interested in traveling and almost 60% respondents preferred travelling internationally. It was found that people preferred to travel in the months of September to December. Majority of respondents preferred to travel to Dubai and were interested in adventure sports abroad.

The research student found out that many of the respondents agreed that tourism creates more opportunities in Hotel industry and Transport sector.

MOP Project is an important course element in MOP programme which enables the students to apply the theoretical knowledge gained to the practical aspect in society.
